

Hello Victory Parents and Guardians,

Prince William County Public Schools is introducing new features to the parent controls for library materials within PWCS' library management system.

Starting the week of **April 27**, parents will receive notifications about the student selected library materials checked out, returned, or renewed by their student that day.

These emails will be sent automatically to the primary parent/guardian email address, ensuring you stay informed about your student's reading activities. This feature will be activated for all PWCS students.

Please visit the **Parent Library Controls** webpage for more information.
